

Your Own Ai Department, Without the Payroll

For growing companies with about \$1M to \$60M+ in revenue

Viper Consulting™ becomes your in-house Ai team. We start with an Ai Opportunity Assessment that finds the bottlenecks slowing your business down, then our engineer-led team builds, runs and improves the Ai and automation that fix them, every month, and proves the return on a live ROI dashboard.

WHAT YOUR AI DEPARTMENT DOES

✓ Finds the bottlenecks

We map how work really moves through your business and put a dollar figure on every slowdown, double entry and dropped handoff.

✓ Answers every customer

Ai receptionists, chat and text that reply in seconds, day or night, in 15 languages.

✓ Trains your team

Hands-on sessions so your staff use Ai safely and check its work, plus a clear company Ai policy.

✓ Automates the busywork

Data entry, scheduling, follow-ups, reports, invoicing reminders and document drafting run on their own.

✓ Builds custom Ai agents

Assistants for sales, support and operations, trained on your own documents and processes.

✓ Keeps Ai accurate and safe

We test outputs, watch for errors and protect your data, so Ai helps instead of creating new problems.

10-Hour Promise

At least 10 hours a week of company-wide savings identified, or a full refund.

ROI guarantee

Not paid back within 12 months? Our team keeps working FREE until it is.

No long-term contract

Month to month after the first 90 days, with 30 days' notice.

FREE assessment for our first 10 clients only. Guarantee terms apply. Pricing and terms as of October 2026, subject to change.

Ai Opportunity Assessment: \$1,997, FREE for our first 10 clients

Plans from \$5,997/mo
